Desperately-looking-for-a-Job-like-Right-Now

~$ cd /Hope "I wish upon a shining Tech Company for a learning opportunity chance to grant my wish to begin my long journey" ~$ sudo "Quest to someday become the expert in DevOps or Full Stack Web Dev"

Technical Skills

Likes: android css html ios javascript web devops google-cloud-platform firebase google-developers-console google-developer-tools google-chrome xcode android-studio intellij-idea gradle kotlin java

---

Education

BSc (Hons) Nutrition – University of Nottingham   *Jan 2011 → Jan 2014*
html, css, ascii

Did a two year long R&D labwork project to study the benefits of Prebiotic contents by extracting their oligosaccharides profiling from various legumes eg. green bean, lentils, tubers and a-more-unusual specimen called "stink beans" or a.k.a. "petal" for MY locals.

Certifications

Fundamentals - SVG Animations – https://grasshopper.app/certificates   *Oct 2019 → Current*
javascript, d3.js, svg, attr, shapes

Fundamentals II - Advanced – https://grasshopper.app/certificates   *Oct 2019 → Current*
javascript, arrays, svg, string

Fundamentals I - Coding with Javascript – https://grasshopper.app/certificates   *Oct 2019 → Current*
javascript, html, css, arrays

Apps & Software

Pink Season 2019 – https://apps.apple.com/us/app/pink-season/id1479880992   *Oct 2019*
android, ios, material-ui, mobile, iphone, google-play, testflight

Pink Season is an app for an LGBT+ festival in Hong Kong celebrating diversity, inclusion, and awareness. This app is my first ever official mobile app release on both the major stores and as a great success kick-off for my new career path advancement in the technology & developer's industry.
